

DIDGERIDOO U KNOW?

an info/performative workshop by Blak Douglas

This performative presentation presents the 'ins & outs' of the Didgeridoo moving toward the cultural phenomenon of the origins of the instrument. Blak's studies from the custodians of North East Arnhem Land, the Yolngu, provide a unique insight otherwise rarely witnessed.

Via a Powerpoint display, students are made aware of the renowned exponents of contemporary performers as well as the traditional icons and their distinct playing styles according to geographic regions.

Blak introduces the basics in playing and shows a variety of instruments and their technical differences.

A highly educational experience particularly for aspiring players.
